

Journal of Intelligent and Connected Vehicles

Editorial Board

Editors-in-Chief

Keqiang Li

School of Vehicle and Mobility, Tsinghua University, China

Jianqiang Wang

School of Vehicle and Mobility, Tsinghua University, China

Executive Editor-in-Chief

Xiaobo Qu

School of Vehicle and Mobility, Tsinghua University, China (drxiaoboqu@gmail.com)

Associate Editors

Daxin Tian

School of Transportation Science and Engineering, Beihang University, China

Diange Yang

School of Vehicle and Mobility, Tsinghua University, China

Dongsuk Kum

Korea Advanced Institute of Science and Technology, Republic of Korea

Edward Chung

Department of Electrical Engineering, Faculty of Engineering, the Hong Kong Polytechnic University, Hong Kong SAR, China

Guodong Yin

School of Mechanical Engineering, Southeast University, China

Hong Chen

College of Electronic and Information Engineering, Tongji University, China

Hongbo Gao

University of Science and Technology of China, China

Hua Wang

Department of Civil and Environmental Engineering, National University of Singapore, Singapore

Inhi Kim

Korea Advanced Institute of Science & Technology (KAIST), Daejeon, Republic of Korea

J. W. C. (Hans) van Lint

Department of Transport & Planning, Faculty Civil Engineering & Geosciences, Delft University of Technology, the Netherlands

Jian Sun

College of Transportation Engineering, Tongji University, China

Jose Reynaldo Setti

Department of Transportation Engineering, University of São Paulo, Brazil

Kimihiko Nakano

Institute of Industrial Science, the University of Tokyo, Japan

Kitae Jang

Korea Advanced Institute of Science & Technology (KAIST), Daejeon, Republic of Korea

Liang Wang

School of Vehicle and Mobility, Tsinghua University, China

Lingxi Li

School of Engineering and Technology, Indiana University-Purdue University Indianapolis, USA

Ljubo Vlacic

Institute of Intelligent & Integrated Systems, Griffith University, Australia

Ludovic Leclercq

Laboratoire d'Ingénierie Circulation Transport (LICIT), Université Gustave Eiffel, France

Meng Wang

Faculty of Transport and Traffic Sciences Technische Universität Dresden, Germany

Mónica Menéndez

Engineering Division, New York University Abu Dhabi, UAE

Nan Zheng

Department of Civil Engineering, Monash University, Australia

Nour-Eddin El Faouzi

Laboratoire d'Ingénierie Circulation Transport (LICIT), Université Gustave Eiffel, France

Pasquale Pace

Università della Calabria, Italy

Pongsathorn Raksincharoensak

Department of Mechanical Systems Engineering, Faculty of Engineering, Tokyo University of Agriculture and Technology, Japan

Radu-Emil Precup

Universitatea Politehnica Timisoara, Romania

Rencheng Zheng

School of Mechanical Engineering, Tianjin University, China

Ronghui Liu

University of Leeds, UK

Said Easa

Department of Civil Engineering, Ryerson University, Canada

Samuel Labi

Lyles School of Civil Engineering, Purdue University, USA

Schahram Dustdar

Vienna University of Technology, Austria

Shengbo Li

School of Vehicle and Mobility, Tsinghua University, China

Shimul (Md. Mazharul) Haque

School of Civil & Environmental Engineering, Queensland University of Technology, Australia

Simeon Calvert

Delft University of Technology, the Netherlands

Toshiyuki Yamamoto

Institute of Materials and Systems for Sustainability, Nagoya University, Japan

Wenlong Jin

Department of Civil and Environmental Engineering, University of California Irvine, USA

Xiaoyun Lu

University of California, Berkeley, USA

Yang Liu

Department of Architecture and Civil Engineering, Chalmers University of Technology, Sweden

Zhigang Xu

School of Information Engineering, Chang'an University, China

Managing Editor

He Chen

Tsinghua University Press, China

Publishing Editor

Yolanda Liu

Tsinghua University Press, China
