

Cybersecurity Organizations Innovate with IEEE Information

Whether you're developing secure applications and networks, researching cyber attacks, or advancing cybersecurity technologies, IEEE is your gateway to the most vital information in the industry today. With the intuitive IEEE *Xplore*[®] digital library, you'll find the journal articles, conference proceedings, and standards needed to lead cybersecurity innovation—and boost your company's bottom line.

IEEE *Xplore*[®] Digital Library

Get access to:

- Journals
- Conferences
- Standards and
- eLearning content related to cybersecurity

IEEE Cybersecurity Initiative

The IEEE Computer Society cybersecurity initiative launched the IEEE Center for Secure Design (CSD) to deliver platform-independent software security expertise from industry, academia, and government.

IEEE Information Drives Technology Patents

Today's cybersecurity corporations deliver new patented technologies at an ever-increasing pace, based on research that is at the forefront of the industry. Patent references to IEEE papers have increased 923% since 1997 and recent studies of the top patenting companies show that **IEEE scientific and technical articles are cited over 3 times more often than any other scholarly or commercial publisher.**

IEEE: the Top-Cited Publisher in Cybersecurity Patents

IEEE is the top scientific and technical research source with 31% of all patent citations in cybersecurity.

Essential IEEE Content in Cybersecurity Technology

IEEE content remains crucial to the cyber security industry—providing research in a wide variety of topics through the IEEE *Xplore* digital library.

Cyber/Information Security	130,500+ documents
Internet of Things/M2M	63,800+ documents
Big Data	47,100+ documents
Edge and Cloud Computing Security	10,100+ documents
Artificial Intelligence	283,000+ documents
Power System Security	12,100+ documents
Encryption and Cryptography	71,300+ documents
Blockchain	9,400+ documents
Malware/Invasive Software	10,000+ documents
Financial and Fraud Analysis	14,900+ documents
Data Privacy	28,000+ documents

Counts are accurate as of November 2021

The IEEE Xplore® Digital Library

Find a subscription that's right for you—from tailored journal collections to the entire research catalog—with the IEEE Xplore digital library. Along with journals, magazines, conferences, standards, eBooks, and eLearning, IEEE Xplore delivers:

- The world's most highly cited journals in technology
- More than 5 million full-text documents
- Full-text, searchable PDFs for all documents, and a growing number of HTML documents
- Abstract/citation and bibliographic records for subscribed content
- Daily content updates with up to 200,000 articles added each year
- Multiple search options
- Interactive reference linking
- Free email alerts

IEEE Leads Cybersecurity Technology

IEEE enables innovation as a leading developer and producer of content across a wide range of industries, from conferences to eBooks, and eLearning courses for aspiring individuals and growing organizations. Below is a sampling of IEEE content.

Journals

- IEEE Computational Intelligence Magazine
- IEEE Internet of Things Journal
- IEEE Network Magazine
- IEEE Security & Privacy Magazine
- IEEE Transactions on Big Data
- IEEE Transactions on Control of Network Systems
- IEEE Transactions on Dependable and Secure Computing
- IEEE Transactions on Industrial Informatics
- IEEE Transactions on Information Forensics and Security

Conferences

- Conference on Information Assurance and Cyber Security
- IEEE Symposium on Security and Privacy
- IEEE Conference on Communications and Network Security
- International Conference on CYBER Technology in Automation, Control, and Intelligent Systems
- IEEE International Conference on Semantic Computing
- IEEE International Conference on Systems, Man, and Cybernetics
- International Conference on Cyber Security, Cyber Warfare, and Digital Forensic
- International Conference on Machine Learning and Cybernetics
- International Conference on Availability, Reliability, and Security

Standards

- | | |
|--------------|---|
| 1686–2013 | Intelligent Electronic Devices Cyber Security Capabilities |
| C37.240-2014 | Cybersecurity Requirements for Substation Automation, Protection, and Control Systems |
| 692-2013 | Criteria for Security Systems for Nuclear Power Generating Stations |
| 2600–2008 | Information Technology: Hardcopy Device and System Security |
| 1402–2000 | Electric Power Substation Physical and Electronic Security |

eLearning Courses

- Available via an expanded course program:
- Cloud Security
 - Data Security in the Cloud
 - Cryptography Fundamentals
 - Social Engineering for Cyber Security
