

## The new Blackmagic URSA Mini Pro is the world's first digital film camera with the features and controls of a high performance broadcast camera!

The new URSA Mini Pro is a true digital film camera with a 4.6K image sensor, 15 stops of dynamic range and a wide color gamut that delivers amazingly rich skin tones, natural color response and incredible detail. You also get built in ND filters, dual C-Fast and SD card recorders, an interchangeable lens mount and more! URSA Mini Pro works in both film and video modes, so it's perfect for digital film or broadcast use all while delivering better image quality!

### Built in ND Filters

Built in ND filters with IR compensation reduce the amount of light entering the camera. The filters are designed to match the colorimetry of the camera, providing additional latitude so you can use different aperture and shutter angle settings for shallower depth of field, and specific levels of motion blur even in bright conditions.

### Powerful Features and Controls

Like the world's best broadcast cameras, URSA Mini Pro features tactile control buttons, switches, knobs and dials on the side of the camera, giving you direct access to important settings. They're laid out logically, making them easy to remember so you can change settings without having to look at the buttons or take the camera off of your shoulder! Plus, every control is redundant!

### Interchangeable Lens Mounts

With URSA Mini Pro, you get a single camera that works with virtually all professional lenses! You can work with high quality EF photographic lenses, large PL cinema lenses, and even B4 HD broadcast lenses, all with the same camera! URSA Mini Pro comes with an EF mount and you can purchase optional PL and B4 lens mounts separately.

### Record to C-Fast or SD Cards

You get both dual C-Fast 2.0 and dual SD/UHS-II SD card recorders so you can choose the media that works best for you. C-Fast cards are ideal for full resolution RAW recording, while common, inexpensive SD cards are perfect for ProRes or RAW HD. With non-stop recording, when one card is full recording automatically continues onto the next!

## Blackmagic URSA Mini Pro \$5,995

Includes DaVinci Resolve 12 Studio for editing and color correction.
